

To: FCC Chair Michael Powell--

Make the right choice concerning the further consolidation/monopolization of TV and Radio within America: allow the representatives of the people, Congress, review the proposed changes to FCC guidelines before making a potentially harmful hasty decision on June 2. If corporations are allowed to own up to 45% of newsoutlets within a market, clearly the listener/viewer will suffer as local news will vanish, the "truth" will be even less likely heard than it currently is, nevermind that music will suffer as corporations push more and more "pay-for-play" artists. Radio and TV consolidation is a boon to corporations, but it leaves the individual listeners and viewers out in the cold. Don't give way to corporate pressures, Mr. Powell, protect the current anti-monopolization stance of the FCC!

Thank you for your time, and best of luck in doing the right thing!

Peace
Anderson Muth
